A MESSAGE FROM OUR PRESIDENT, DICK PIPPEN, RPIPPEN@COMCAST.NET

Greetings Orchid Lovers—The feature program for our November 2018 meeting got a bit confusing. First Segundo Cuesta of Quest Orchids was scheduled to be our speaker, but due to some health problems in the family he was unable to come. So, we decided to do a "Plant Table Review" by having some of the Plant Table Winners discuss their "success stories." But, then at the last minute we were able to arrange, through the efforts of Kit Kitchen-Maran, to have Dr. Dennis Whigham of the North American Orchid Conservation Center (of the Smithsonian Institute), who "just happened to be in town," as our featured speaker and what a pleasant, delightful surprise that was! NAOCC focuses on trying to ensure the survival of the 200 species of native orchids in the United States. According to the NAOCC website, Dr. Whigham's efforts "focus on establishing collections of seeds and orchid mycorrhizal fungi, developing protocols to propagate and restore all native orchid species and developing an interactive website to provide the public with a mechanism to identify and learn everything that is known about our native orchids." His presentation was very informative and the work he and his colleagues are doing very exciting. Oh yeah, the NAOCC is also responsible for the "orchigami" project.

As you all know the November monthly meeting is our "Official Annual Meeting," at which time we elect officers for the coming year. The list of officers and directors elected appears elsewhere in this newsletter. But I do want to take a minute to thank our two out-going officers: Nanett Boerner (Treasurer) and Bill Overton (AOS Representative). They have done outstanding jobs for the Society and I really appreciate all their excellent efforts. THANK YOU, THANK YOU THANK YOU.

It is hard to believe that another year has almost come and gone and that our next meeting will be our December Holiday Party and Potluck (on Dec 7). Remember that for that function we meet "next door," in Moss Hall. As I always say the Naples Orchid Society orchid growers also know their ways around the kitchen and we always have such delightful and taste-tempting dishes at this event. I hope that ya'll can make it. So until then—keep your orchids happy! *Dick*

NOVEMBER MONTLY MEETING ATTENDANCE: 74 RAFFLE PROCEEDS: $225
CARE AND CONDOLENCE: A SYMPATHY CARD WAS SENT TO THE FAMILY OF NOS MEMBER TONY GRECO, WHO PASSED AWAY NOVEMBER 7.

Do You *Smile* When You Order From Amazon?

If you order from Amazon, did you know that you could also support Naples Orchid Society with your purchase at no cost to you? Go to smile.amazon.com, it's the same company, same prices, same account and same everything, except Amazon will let you name a non-profit organization and donate 0.5% to it. NOS has already been registered and linked, but you will need to go to this website and name us as the organization you have chosen for the donation to go to. Remember to go to smile.amazon.com to order using your same account login and password for your Amazon account. Bookmark it so you will have a reminder. And THANKS for supporting your Society!

Thank you to our November refreshment providers: Carolyn Booker, Ralph Brand, Mary Southall, Rae Jean Walker & Christine O'Donnell; to our Raffle Table worker: Sue Roehl; to our Plant Table workers: Sheila Demkovich, Lanelle Bishop, Carolyn Booker & Karen Davenport. Please contact Mary Jo Shively @ maryjoshively@gmail.com if you would like to bring refreshments for our January or February monthly mtgs.

Please welcome our newest NOS members Sally Brown & Deborah Gresser.

Speaker Dr. Dennis Whigham

From Your AOS Rep, Bill Overton

Are you ready for something fun and completely different? I am here to tell you about a wonderful web site that I stumbled upon back in May, *The National Gardening Association*. Their web address is *garden.org*. I just fell in love with the site and I enrolled for free. Once you sign up to participate, a whole new world will open up before you. My favorite thing is the "forums." These forums (threads) cover all types of gardening topics - annuals, perennials, orchids, hibiscus, cacti, Plumeria, ferns, iris, begonias, dahlias, and so many more. If you would like to learn how to grow something they have a forum that covers it.

In orchids they have forums such as "What is in bloom for November 2017," "What do you mount your orchids on?", "Water culture," "Do you Grow Laelias?", "Anticipation," and "Can anyone ID this orchid?" There are so many forums and ways to participate and grow better orchids. You can post questions in the forums and someone will get back to you - in fact several people might respond. It is just a wonderful tool for us orchid growers! You can find me on the forums as "Big Bill".

They have a form of currency on their web site called 'acorns.' You can get acorns by posting pictures, leaving helpful comments or advice. The web site explains it all. They run raffles on the site where 'acorns' are used to purchase the raffle tickets. I was entered in the raffle and won a prize. Prizes are items like gift certificates for a rose nursery, perennial nursery, a peony grower, and literally all kinds of things. If you win you are notified by e-mail and you wait for your turn to select your prize. It is so much fun. There is even a forum thread on the raffles themselves. The web site is fun just to browse.

So I invite you all to please check it out. And I promise you are in for a load of fun if you do. See you in the "forums!" Please use my reference member link: http://garden.org/users/join/Big Bill/. You will be glad that you did! ……. *Bill*

An Orchid Vignette—White is White—Or is it Pink

Everyone knows that there is usually a lot of variation in hybrid orchids, that the offspring usually don't look like their parents, that the color of the hybrids are not always the same. And that is certainly the case with two very nice old-time, what I usually think of as white, orchids—*Bc*. Mount Anderson and *Bc*. Mount Hood.

The left photo below is what I know as *Brassocattleya* (*Bc*.) Mount Anderson, a nice 5-6 inch white "*Cattleya* like" flower, but the photo on the right is *Bc*. Mount Anderson 'Big Surprise,' and as you can see, "it ain't white!" But it is an equally nice flower. *Bc*. Mt. Anderson is a cross between *Cattleya* Bow Bells and *Bc*. Déesse. It was created and registered by Beall Orchid Company in 1962. It has earned 30 AOS awards, but none recently. The grex has also been used as a parent in 66 crosses. It is not a "compact" plant and the pseudobulbs and their single leaves may easily reach one foot or so.

Brassocattleya Mount Hood is also a white orchid that is sometimes pink. The photo left below, cultivar 'Peppermint Stick' is white, but with "a touch of magenta" on the lip. The photo on the right is cultivar 'Orchidglade' and as you can see, it is definitely pink. *Bc*. Mt. Hood is a cross between *Bc*. Déesse and *Cattleya* Claris. This grex was also created and registered by Beall Orchid Company in 1962, the same year as Mt. Anderson. Mt. Hood has had about the same number of AOS awards, 29, but it has been more successful as a parent—used in 182 crosses—and has over 300 "grandkids." Like Mt. Anderson, this is a large-sized orchid and the pseudobulbs and their single leaves easily become a foot or so in length. Also interesting to note is that both of these orchids share a common parent, *Bc*. Déesse (a real old-timer created and registered in 1947 by Vacherot-Lecoufle Orchids of France).

Beall Orchid Company of Seattle, Washington and their "hybridizer," Daniel Harvey, had a thing for mountains. In addition to the two "mounts" above, they named 20 other orchids as Mount—"something or other." The Company apparently went out of business in 1990.

As with many orchids the names have changed and both Mt. Anderson and Mt. Hood are now *Rhyncholaeliocattleya*. Regardless, they are still nice white orchids. . . or pink, as the case may be. Both of these orchids are available at Jade Orchids. Oh, by the way, the photos of the pink flowers above are "borrowed" from OrchidWiz Encyclopedia.
