The Naples Orchid Society is a non-profit organization, devoted to the promotion of, interest in, and the appreciation of orchids and the preservation of our native orchids. It is also our aim to disseminate information pertaining to their culture and hybridization.
www.NaplesOrchid Society.org

A MESSAGE FROM OUR PRESIDENT

Dick Pippen
Rpippen@comcast.net

Greetings Orchid Lovers—At our May meeting Nick Ewy of the Naples Botanical Garden told us about his recent trip to Cuba to attend a workshop and explore the orchids of Cuba. He then shifted gears and told us about the orchids at NGB and especially the work being done with the Ghost Orchid. Seventy-five people attended the meeting and I am sure all enjoyed his presentation.

Again this month our members outdid themselves with lots of beautiful blooming orchids brought in for the "friendly" monthly plant competition. I want to thank Karen Davenport, Carolyn Booker and Barbara Crist for working at the plant table. There efforts are greatly appreciated. Ok—listen up—we are making a change in the position of some of the plants on the plant table because of some continued confusion. Starting next month the Large Phalaenopsis will be moved "across the room" next to the Large Vandas and the Small Vandas will be moved "across the room" next to the Small Phalaenopsis. We hope that this will make it easier for you to determine which category your plants belong.

I was pleased to announce that we received our "share" of the income from our orchid show at the Garden. This year we received a check for $13,000!!! As you recall over 4,100 people viewed our show. Let's hope next year is as successful!! It will be if all of us do our share—remember this is a volunteer organization and your help makes it possible.

I thought I would share with you an orchid of mine that recently came into bloom. I would not call it "beautiful," but it is definitely interesting. This is *Cattleya* Memoria Mack Miller, a cross between *Cattleya schilleriana* and *Cattleya* Peckhaviensis (which is a cross between *C. aclandiae* and *C. schilleriana*), so it has a "double dose" of *C. schilleriana*. Bill Overton really got excited about the lip on this orchid. Cheryle Daniel says "it smells like soap." It was registered by Todd Miller, Miller Tropicals, Miami, FL in 2012. It has been awarded two AM/AOS. Just thought you would enjoy knowing about this "big lippy" orchid.

Our June Meeting will feature Patrick Higgins of the Friends of the Fakahatchee who will tell us all about the orchids of the Fak. Hope you all can make it. And, don't forget that our July meeting will be on the 11th of July, the second Thursday because the first Thursday is the 4th and, although many of our orchids are "fiery" they cannot compete with the fireworks. Until then—keep you orchids happy.

Dick

Upcoming Events

July 19-20: The International Phalaenopsis Alliance Symposium, Highland manor, 604 E. Main Street, Apopka, FL 32703. Info: www.phal.org

June 1-2: Central Florida Orchid Society Show "Orchid Hunt," National Guard Armory, 2809 S. Ferncreek Ave., Orlando, FL; Contact: Teri Scott, 407-463-0274; teriscottfla57@aol.com

July 19-20: The International Phalaenopsis Alliance Symposium, Highland manor, 604 E. Main Street, Apopka, FL 32703. Info: www.phal.org.

April 10, 2021: AOS Centennial Gala, American Orchid Society 100th Anniversary, 1921-2021.

TASKS FOR JUNE

From Florida Orchid Growing Month by Month by Martin Motes, PhD

- Careful watering this month often means no watering at all. Arise early to enjoy the cool and water only when truly necessary.
- Space plants amply. Good air circulations is essential across the coming months.
- Re-pot Phals and re-set Vandas. Make sure that plants are firmly set in their new abodes.
- Begin or continue a disease prevention program with the prophylactic application of thiophanate methyl (Cleary's 3336) and Aliette or Banrot.
- Clean up growing area and plants. Remove dead leaves from plants and the ground. Pull weeds.
- Prune trees and shrubs to increase light and air circulation.
- Apply snail bait lightly early in the month and again lightly mid-month.
- Set air conditioning thermostat to 80° and enjoy living in the tropics.

AOS PLANT JUDGING

WPB Judging Center next judging date is

June 22, 2019

Flamingo Gardens
3750 S. Flamingo Rd.
Davie, FL 33330

Offering 10% discount on plants for NOS members.

Minutes of the NOS Monthly Meeting
2 May 2019
Respectfully submitted by Cynthia Bock

The meeting was called to order at 7:30pm.

President Dick Pippen reviewed the emergency procedures and thanked the refreshment providers. The show was a great success and we received a check for $13,000 our share of show proceeds. Very good! Dick also thanked all the volunteers who worked the show. Redlands Orchid Festival is coming up. Please sign up for the bus trip. (Although we think it is full). In July our meeting will be held on the second Thursday, 7/11. Dick announced that Eunice Walker is having a plant sale on this Sat. 9 to 12 at her home. See the sign. Cash and checks only.

At our June meeting, Patrick Higgins will talk about the Friends of the Fakahatchee and the native orchids there.

Veronica Catrombon, Membership Chair reported that we have 178 members.

Treasurer is absent but submitted report that we have $27,778 in checking and $10,457 in money market.

VP David Orr introduced the speaker, Nick Ewy from Naples Botanical Gardens who presented "Native Orchids at the Garden".

Plant table winners were announced.
Raffle winners were selected.
Next meeting is on June 6th.

PLEASE NOTE—MEETING SCHEDULE for 2019

Our regular monthly meetings fall on the first Thursday of each month.

However for 2019 our July meeting will be held on the second Thursday—July 11.

May Meeting Attendance, Raffle Proceeds and Our Volunteers

May monthly meeting attendance: 75
Raffle proceeds: $175.00
Hats: $15.00

Thank you to our plant table workers: Karen Davenport and Carolyn Booker

Thank you to our raffle table workers: Sue Roehl and Rae Jean Walker.

Refreshment Providers for May

Many thanks to our Refreshment Providers Lorraine Buckley, Debra Simoff, Joy Corritore, Diana Genotti, Mary Lane, Karen Davenport, Rae Jean Walker, Marija Rosenfeld, and Cheryl Daniel. Contact me if you can provide refreshments for one of our future meetings:
Mary Jo Shively, NOS Director and Refreshment Coordinator
maryjoshively@gmail.com

Welcome to Our New Members for May 2019

Betty Berger, Alicia Schwartz, Jennifer Rotigel

Care and Condolence

Get Well card was sent to Mary Lane.

MEMBERSHIP NEWS

Membership Chair Veronica Catrombon will be accepting membership renewals for 2019 at our June 2019 monthly meeting. You may also pay by check mailed to Naples Orchids Society, PO Box 7998, Naples, FL 34101, or by credit card at www.naplesorchidsociety.org Single membership $40, Family membership $50.
Question about Membership? Email Veronica at **naplesorchidsociety@gmail.com**

FROM YOUR AOS REP
Marilyn Moser
Mm3purple@aol.com

Are you overwhelmed by your orchid collection ? Do you have more than you can manage ? Has it become a chore rather than a labor of love to take care of your plants ? If so, perhaps it is time to do some culling. Yes, that time when you assess your plants and decide which ones are not performing well. Did the plant produce more flowers this time than last or just the same number or less ? Maybe it's time to let it go….maybe trade it to a friend who can grow it better. Or perhaps have a sale and invite friends & fellow members who would love to have some of your plants. Just something to think about.

As I write this, we are only days away from the wonderful Redland International Orchid Festival which is an event that we orchid lovers look forward to every year with great anticipation ! With over 60 vendors from around the world you will find an unmatched variety of orchids !

It was wonderful to have a few afternoons of rain last week…the best kind of water for our orchids. And it saves having to water the next day ! *Marilyn*

AOS WEBINARS – COMING ATTRACTIONS

(registration required: www.aos.org/orchids/webinars.aspx - webinars are available to view at your leisure from the same page if you are not available at that time.*)*

June 5, 2019: "The Care & Feeding of Stanhopea," by Inge Poot, Toronto Judging Center, 8:30 PM.

July 11, 2019: "The Story of White Cattleyas," by Jean Allen Ikeson, National Training Coordinator, Chair of the AOS Editorial Board, 8:30 PM

FROM AOS "GROWING ORCHIDS" MONTH-BY-MONTH CHECKLIST

by Robert M. Scully Jr.

- Orchids repotted earlier should be showing new roots & growths. Fertilize more often. Apply a concentration of at least 2 t./gal. of water of soluble formulations or the equivalent of 250ppm in liquid formulas. With more light & higher day & night temperatures, excellent air circulation & a fresh growing medium, the orchids will consume more nutrients. Robust growths will produce more high quality flowers next season.
- Finish repotting *Cattleyas* in June. *Cattleyas* outside in the subtropics must be protected from excessive rainfall. Apply protective fungicides when the relative humidity levels begin to hover consistently in the 70% range.
- Complete repotting Phals. Check the turgidity of the foliage & condition of the roots of specimens still in bloom. June's longer, warmer days increase the moisture requirements of flowering plants. Do not be greedy. A Phal. will deteriorate rapidly if forced to carry its inflorescence too long in a stressful cultural environment. Repot rather than lose a plant. If in doubt as to whether the potting medium will be good for another year, opt to repot now. Remember to repot Phal. seedlings too. Those repotted from 2-3" pots now will have a good chance of blooming next winter. Fertilize at least 3-4 times this month & for the balance of the summer at the same rate as described for *Cattleyas* above. Protect *Phalaenopsis* from overhead water, both artificial irrigation & rain, & water early in the day so foliage is dry by nightfall.

An Orchid Vignette--Some Enchanted Lady

As you know, I like *Brassavola nodosa*, The Lady of the Night Orchid, and its hybrids, and this is another one that has become a favorite of mine. These photos (1-2, 3-4) are of two different siblings of the same cross, a hybrid between *B. nodosa* and *Laeliocattleya* Land of Enchantment. I have always referred to it as "Enchanted Lady." The cross was made by Paul Carlson of Gulfshore Orchids, here in Naples many years ago. I think a number of the "old timers" in the Naples Orchid Society probably have this plant. I was fortunate enough to obtain my plants from David Genovese.

The shape of the flower has retained the characters of the *B. nodosa* parent with narrow sepals and petals and a big, flared lip. The spots are also inherited from *B. nodosa*. But, since *B. nodosa* flowers are pale green and white, the color is from the *Lc*. Land of Enchantment parent. The plant is certainly not a miniature with the narrow pseudobulbs and leaves together standing about a foot or more tall, but it has short internodes so it is a "containable" plant. Enchanted Lady reliably bloom two to three times a year. The plants appear to be happy growing in plastic pots in a mixture of bark, charcoal, sponge rock and Hydroton, in a west-facing pool cage.

Lc. Land of Enchantment was created by Rivermont Orchids of Signal Hill, Tennessee and registered 1960. *Lc*. Land of Enchantment flowers have been described best in the official description of an AOS awarded HCC in 1968 that called the flower "a rich plum color with remarkable sheen and velvet-texture; much darker labellum." You can see that especially in the "Enchanted Lady" photos 3 & 4 above.

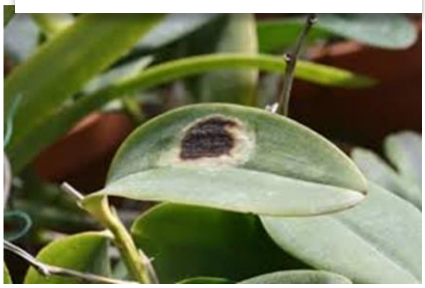
One of the grandparents of *Lc*. Land of Enchantment, on both sides, was *Cattleya bowringiana* which has been transferred to the genus *Guarianthe*. That means that the official genus for Land of Enchantment is *Cattlianthe.* So, when Jim Longwell registered this hybrid in 2018 it became a member of the genus *Brassanthe*, and lo and behold he named it *Bct*. Enchanted Lady. Good choice Jim!!

Contributed by Dick Pippen

WATCH OUT FOR SUNBURN

With the sun moving further to the north (and with some of us still missing foliage on trees, thanks to Irma) please watch your orchids for sunburn. This can happen very quickly. The sudden appearance of brown then black areas on exposed surface of leaves on a bright & hot day, may be sunburn. Check shading. If blackened areas increase in size it might be bacterial or fungal disease. Cut off diseased area, treat with fungicide, isolate plant & dry it off.

Sunburn



Bacterial/fungal disease

More Orchid Terms

From The American Orchid Society

- ***Articulate:*** Hinged.
- ***Epiphyte:*** A plant that grows on another plant for support.
- ***Hyaline:*** Glassy translucent appearance.
- ***Petiole:*** The stalk joing a leaf to a stem or pseudobulb.

Education Update

Kit Kitchen-Maran
Education Chair and Past President

2019 NOS Intern Scholarships

I am proud to announce that **NOS has funded three $1000 scholarships for 2019**. This will be the eighth year that students have received education and research funds from our society. Also this year, I am excited that a Naples native has applied and been a recipient of one of these scholarships.

Taylor Sorrell is a graduate of Palmetto Ridge High School and is attending Purdue University in Indiana. Her major is Agricultural Biological Engineering and she hopes to apply her grant to her Biowall Project. She is proposing to try orchids and bromeliads as the plants used on the wall to help purify indoor air. **Please meet her at the July 11th meeting** to find out more about her work in air and water quality.

We also have two students of Dr. Zettler's who will be here in July. They are the 14th and 15th students coming from Illinois College in Illinois. ***Michael La Russo*** and ***Jiaqi (Jack) Lu*** have received the other two grants for 2019. Both major in Biology. They will be working in the **Florida Panther National Wildlife Refuge (FPNWR)** on the fifth year of data collection on the ghost orchids and other native orchids. Please encourage them as they fight the bugs, heat and gators at the FPNWR in July. They too, will attend our July meeting.

This is a quote from **Dr. Zettler's** letter of support for his students:

Thank you (!) for your sustained and exceptional support of our efforts to conserve native orchids in south Florida. It is with pleasure that I write this letter of support for two new Illinois College students who aspire to study the Ghost Orchid, Dendrophylax lindenii, in July of this year: Michael LaRusso (a senior) and Jack Lu (a sophomore). Both were among the top three students in my Botany course last fall – a field intensive course that required collection and identification of the local flora. In this setting, both students learned a great deal about vascular plants, and they would like to apply what they learned in the Florida Panther NWR as summer interns studying the Ghost Orchid. Although neither student has visited south Florida, they are eager and willing to learn more about the flora and fauna of the region which will broaden their knowledge, and give them a unique, life changing opportunity to jump-start their professional careers.

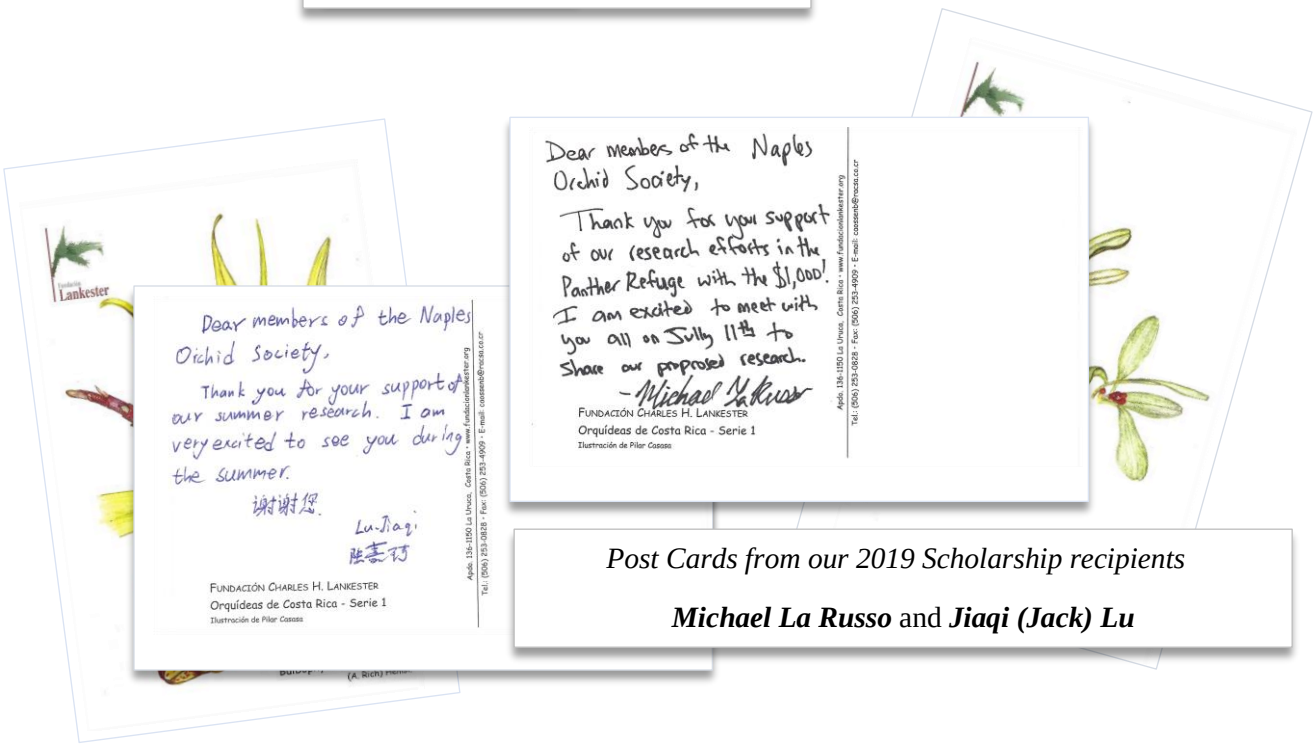
Project Goals 1. Survey (document, measure) existing Ghost Orchids within the Florida Panther NWR in Year 5 of the survey work spearheaded by Dr. Ernesto Mujica and previous Illinois College students; 2. Explore new areas of the Florida Panther NWR that are potentially harbor new Ghost Orchids, adding to the total number of known plants; 3. Assist staff with photographing/documenting insect pollinators of the Ghost Orchid.

To date, **20 students have been NOS funded** and **Dr. Ernesto Mujica**, ghost orchid specialist from Cuba, has been given two grants to work in the FPNWR, collecting important data on the ghost orchids there. **Adam Herdman** has been given three years of NOS help to collect for that ongoing study and was also funded to work in the Refuge last fall to further the research.

As of this writing, we do not know if **Dr. Mujica** will be able to get an entry visa for this July, but he would love to come again and is exploring ways to secure a visa for this year. However, the data collected will be able to extend the study and Dr. Zettler continues working with him in Cuba. They are collaborating on several scientific papers on these orchids.

I cannot fail to mention the wonderful contributions that have supported our interns since 2011. Past members, **Connie and Lake Sims;** our treasurer, **Sheila and Paul Demkovich**, board director, **Carolyn Booker; Kit and La Raw Maran** and many others have supported this program with their monetary gifts. This past December, one of **Dick Pippen's** former students, **Mal Hickok**, generously donated $2350 for a scholarship in Dick's name to NOS. Thanks to all, NOS is achieving its mission of educating and supporting research on native orchids so that they may be conserved and preserved. **Dr. Zettler** has published a number of papers resulting from the information his students have helped provide with our support. So the research done here in SWFL is reaching a far wider audience and is advancing what is known about native orchids here and elsewhere. *Kit*

Dick Pippen, Michael Weisenfelder and Adam Herdman



Post Cards from our 2019 Scholarship recipients

Michael La Russo and ***Jiaqi (Jack) Lu***

<u>Do You *Smile* When You Order From Amazon?</u>

If you order from Amazon, did you know that you could also support Naples Orchid Society with your purchase at no cost to you? Go to **<u>smile.amazon.com</u>,** it's the same company, same prices, same account and same everything, except <u>Amazon will let you name a non-profit organization and donate 0.5% to it.</u> NOS has already been registered and linked, but you will need to go to this website and name us as the organization you have chosen for the donation to go to. Remember to go to <u>smile.amazon.com</u> to order using your same account login and password for your Amazon account. Bookmark it so you will have a reminder. And THANKS for supporting your Society!

Look what's blooming in my collection!

Dick Pippen shared some photos of a remarkable orchid in his collection.

This is a first bloomer--but I doubt it is a seedling, but it is the first time it bloomed whatever it is. I am excited. I got this as a "baby" from Ritter at Flamingo in 2017 and it finally bloomed.

It is fascinating to me because as a Grammatophyllum, the flower spike grows downward instead of upward--plus the flower is weird (smile). Enjoy!
Dick

Grammatophyllum B-291 stapeliiflorum

Send a few photos of your blooming orchids!

We would love to see them in our newsletter!

Once Upon A Time, over forty years ago, The Paper Merchant was created by a family full of passion and a tradition that spans two generations. Whether your taste is from the classic lines of William Arthur or Crane, whimsical in style like Stevie Streck or Karen Adams, or that one-of-a-kind, over-the-top creation, we have it or will make it. The Paper Merchant is here for you and will exceed your wildest expectations. Our creative team and our two locations are just what you need to set the stage for your next function, event, moment or milestone!

CLYDE BUTCHER
Black & White Fine Art Photography

Clyde Butcher's monumental photographs celebrate the beauty of the natural landscape. The exquisite beauty and depth of his work draw the viewer into a relationship with nature. In the tradition of the nineteenth-century Hudson River School painters, Clyde composes his works at pristine and untarnished locations across the United States and world, creating arresting compositions that distinctly mark him as the foremost landscape photographer in America today. His photography transcends political boundaries, challenging us to work together to protect natural places across the globe.

Although Butcher will always be identified with the Everglades, he is deeply committed to recording precious landscapes throughout the world. The beauty and importance of Butcher's photography quickly earned widespread recognition resulting in museum exhibits in the United States, an exhibit at the National Gallery of Art in Prague celebrating the new millennium, and a request by the United Nations to photograph the mountains of Cuba to celebrate *The Year of the Mountains.*

The Turtle Club
Two $50 restaurant gift cards
to be raffled at show

9225 Gulfshore Drive N
Naples, FL 34108
239-595-2916

In 1999, The Turtle Club opened on the grounds of the Vanderbilt Beach Resort, transforming the landscape of waterfront dining in Naples. Specializing in fresh seafood, fine steaks and chops served in a spectacular beachfront setting, the restaurant quickly became a favorite "secret spot" for local Neapolitans. The secret has been out for some time now, and the restaurant consistently has been voted the area's top restaurant for waterfront dining. With a focus on casually elegant fine dining, hospitable and caring staff, and outstanding food and wine, The Turtle Club wins rave reviews from loyal locals and out-of-state newcomers.
